Feature # 4 (In Progress): Self-Service portal

Tieing access to internal wiki Pages to member ldap group

05/13/2020 10:50 PM - cpp zombi

Status:	New	Start date:	05/13/2020
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
We shouldn't allow everyone with an ldap account to access the internal namespaces in the wikis, so that we can hand out ldap accounts more freely. As far as I see that would affect the access to the "internal" namespace in dokuwiki and the "zombi" namespace in mediawiki			

History

#1 - 05/13/2020 10:51 PM - cpp zombi

- Project changed from LDAP to mediawiki

#2 - 05/13/2020 10:54 PM - cpp zombi

- Project changed from mediawiki to wiki

- Subject changed from Tieing internal wiki Page to member ldap group to Tieing access to internal wiki Pages to member ldap group

#3 - 05/13/2020 11:05 PM - cpp zombi

- Description updated
